Deschutes Bank Erosion Report Dec 2007 Final.doc

My apologies Chris. Mindy sent these to me yesterday but I didn't get it forwarded to you before I had to leave for the day. I hope this helps.

**From:** Roberts, Mindy (ECY)

The hydrogeology study is an EAP report:  
<https://fortress.wa.gov/ecy/publications/SummaryPages/0703002.html>. Also a link under Technical Info on the Deschutes TMDL web page.

I thought we had the Raines report online, but it's not under Tech Info... maybe add this?? The figures and App A are in separate files and not embedded in the Word document. Attached is the main body of the report (12 MB!) and I put the other files on our FTP site where Chris can download them (no password required); they expire in a week or two so this is not a permanent archive site: <ftp://www.ecy.wa.gov/Deschutes%20Raines%20Report/>

Thank you Dustin, I very much appreciate it!

I am in and out of meetings (mostly out of office) through Thursday. Maybe we can chat later this week or early next week?

I didn't see a sediment budget report in the attachments – did I miss it...or is the attached spreadsheet the report referenced in the TMDL?

Also, might it be possible to obtain the hydrogeology studies as well?

Thanks in advance for your patience with my requests.

Respectfully,

Chris

**Importance:** High

Hi Chris,

These were tucked away on our network server. I hope you find them helpful.

Hi Chris,

I checked online, emails, and computer files and couldn't locate these items. I'm forwarding your request to Mindy Roberts who I'm sure can help. She doesn't work on Fridays and won't see the message until Monday. We'll get the information to you as soon as we can.

Regarding scheduling a meeting, the week of February 22-26 works best for me. I look forward to meeting you .

Lydia

**Subject:** Deschutes TMDL Update and Document Request

Good Morning Lydia and Dustin,

I hope this note finds you both doing well. As you may have heard, we are diligently reviewing all the great work and thought contained in the Deschutes TMDL. When you have a spare moment, I was hoping you might be able to send me a copy (or link to) of the sediment budget (Raines 2007) and hydrogeology studies referenced in the submitted TMDL. I may not be looking in the right place, or missed it on the TMDL technical documents website - I appreciate your patience.

Also, we were hoping to schedule a meeting with you and your colleagues in mid to late February to discuss any questions we might have.

Thanks in advance,

Chris and Laurie
